

JAPJOT SINGH

Tempe, AZ | +1 (623) 273-6288 | jsing138@asu.edu | [Personal Portfolio](#) | [LinkedIn](#)

SUMMARY

Computer Science student at Arizona State University (GPA: 3.85) with experience in software engineering, full-stack web development, AI-powered applications, and research. Proficient in Java, Python, JavaScript, SQL, React, and API integration. Passionate about building scalable technology solutions and collaborating in fast-paced team environments.

EDUCATION

Bachelor of Science in Computer Science

May 2027

Arizona State University, Tempe, Arizona

3.85/4.0 GPA

- New American University Scholar (Merit-based \$13,500 per year)
- Dean's List (Fall 2023, Spring 2024, Fall 2024, Fall 2025, Spring 2026)

SKILLS

- **Languages:** Java, Python, JavaScript, TypeScript, HTML, CSS, SQL
- **Frameworks/Tools:** React.js, Next.js, Node.js, Flask, SQLite, Git/GitHub, REST APIs, Gemini AI, OpenAI API
- **Concepts:** Data Structures & Algorithms, OOP, Agile/Scrum, Responsive Design, API Integration
- **Research & Engineering:** Blockchain, Distributed Ledger Technology, Data Pipeline, FES, IMU Sensors, Wearable Systems, Technical Documentation

EXPERIENCE

Undergraduate Researcher (FURI Scholar)

Jan. 2026 - May 2026

Fulton Undergraduate Research Initiative at ASU, Tempe, AZ

- Conducted research on AquaChain, a blockchain-based framework for transparent water footprint tracking in agricultural supply chains.
- Designed a data processing pipeline to standardize and validate environmental data across multiple countries and crops.

Founder

Sep. 2025 - Present

Surplusly, Tempe, AZ

- Founded and developed Surplusly, a full-stack platform designed to reduce restaurant food waste by redistributing surplus food to nearby customers and community organizations.
- Designed a multi-role ecosystem connecting restaurants, customers, volunteers, and NGOs through real-time surplus food listings, reservation workflows, and food rescue coordination.

Marketing Officer

Sep. 2024 - May 2025

CS + Social Good Club at ASU, Tempe, AZ

- Increased club visibility by 25% through coordinated marketing strategies and social media campaigns.

Front-End Web Developer Intern

May 2024 - July 2024

Singh Events Pvt. Ltd., New Delhi, India

- Developed and maintained responsive web pages using HTML, CSS, JavaScript, and React, improving site engagement by 25%.
- Collaborated with the design and marketing teams to enhance user interface consistency and accessibility across devices.

Communication Lead

Aug. 2023 - Dec. 2023

EPICS Program at ASU, Tempe, AZ

- Coordinated communication efforts for an Anti-Tremor Parkinson's Glove project with 5+ stakeholders.

PROJECTS

TrueTrace - AI-Powered Misinformation Detection Platform | *Next.js, TypeScript, Tailwind CSS, API Integration, Node.js*

- Built an end-to-end web app that verifies online content credibility in seconds.
- Leveraged Gemini AI to enhance the reliability of content verification, helping users quickly identify misleading or false information.
- [Github Repository](#)

StudyPal AI - Productivity Web App | *React, Flask, Python, OpenAI API, SQLite*

- Created a web app that helps students stay focused with a study timer, progress tracking, and an AI-powered study assistant
- Added gamified mini-games unlocked by study milestones to keep users engaged; source code available on GitHub
- [Github Repository](#)

Parkinson's Glove Project (EPICS) | *FES, IMU Sensors, Wearable Systems*

- Defined technical requirements through stakeholder interviews and benchmarking of existing tremor-reduction devices.
- Designed the initial architecture for a sensor-driven FES sleeve using IMU tremor detection and controlled stimulation.
- [Technical Design Document](#)
